

## SiteLock Needs a Front-End Engineer

SiteLock is the Global Leader in business website security and is the **only** web security solution to offer complete, cloud-based website protection. We find and fix threats, prevent future attacks, accelerate website performance and meet PCI compliance standards for businesses of all sizes (basically like Batman if Gotham City was the internet). Our mission is to protect every website on the internet (yes, we know that's a colossal goal, but we are THAT good), that's why we need talented people like yourself to join our ever-growing team!

### That's Nice, But What's The Job?

The Front-End Engineer is responsible for the complete website development lifecycle to produce engaging sites, pages and applications. The Front-End Engineer must have experience with building, managing and optimizing sites for SEO and lead conversion. If this is you, we have an exciting opportunity for you to support the brands in the SiteLock portfolio.

- Front-end website development and maintenance of company website
- Application integration with lead generation and nurturing applications
- Customization of websites, landing pages and applications to meet lead generation and tracking goals
- Bringing new ideas to current websites to enhance the user experience
- Working with storyboards, wireframes and animations bringing them to life in online applications
- Communicate web design and development goals and messages to other members of the marketing team, ensuring integration of requirements into all aspects of marketing programs
- Managing multiple projects and time-sensitive deadlines
- Participating in ongoing collaboration with colleagues in a team environment

### What Are We Looking For?

- Strong understanding and application of current web design best practices, standards, and methodology
- Strong working knowledge of and experience with:
  - HTML, XML, XHTML
  - JavaScript, jQuery (or similar)
  - PHP, CSS, technologies
  - Apache
  - Photoshop
  - Experience integrating with third party APIs
  - GIT Development Environment
- Ability to slice up Photoshop files and build them as HTML 5 themes and web pages
- Experience with web analytics software and tools
- Excellent problem-solving skills
- Passionate about user experience and web site usability
- Strong work ethic and organizational skills
-  Strong online portfolio of web development work

- Excellent communication and organizational skills
- Ability to work under tight deadlines while delivering high quality results

### **Anything else? Absolutely.**

SiteLock was recently awarded the Best of Cool award for our great culture by BestCompaniesAZ and are one of the Best Places to Work as awarded by Arizona Business Journal. Essentially, we offer a relaxed, friendly, fun and upbeat environment since we work here too! SiteLock is also the Fastest Growing Software Company in Arizona two years in a row per Deloitte's Fast 500, and we aren't slowing down anytime soon!

### **So What About The Perks? Perks Matter.**

- **Medical, Dental and Vision.** SiteLock pays a nice chunk of your premiums to keep the cost as low as possible for our employees.
- **15 days of PTO and 7 paid Holidays.** Because who doesn't love time off?
- **Benefits like 401(k), company paid life insurance, short and long-term disability.**
- **Casual Dress.** Come dressed in jeans (you'll fit right in with the rest of us).
- **Game Room.** Gimme a break – no, not a Kit Kat ad but we do have a ping-pong table, shuffle board and PlayStation if you ever need a break in your day.
- **Wellness Program.** We want our employees to be the best versions of themselves. That's why we offer a Wellness Program that includes an in-house Fitness coach, back massages, allergy testing, biometric screenings and much more!
- **Growth opportunities.** When we grow... our people grow! Our plan is to double in size by 2021. In order to do that, we need to develop our team members and foster their knowledge in cyber security and business.
