SiteLock Needs a Senior PERL Developer!

SiteLock is the Global Leader in website security and is the only web security solution to offer complete, automated cloud-based website protection. We find and fix threats, prevent future attacks, accelerate website performance and meet PCI compliance standards for businesses of all sizes. Our mission is to protect every website on the internet (yes, we know that's a colossal goal, but we are THAT good), that's why we need talented people to join our ever-growing team!

That's Nice, But What's The Job?

The Senior PERL Developer will focus on building mid-tier application code, front-end web application and development. The role will also provide opportunities for improving and supporting our systems architecture.

What Are We Looking For?

Candidates will have strong work ethic, the ability to identify solutions to problems, effective communication skills, and the desire to work for an entrepreneurial company and embrace an entrepreneurial culture. Ideal candidates are self-motivated and display a positive attitude; and above all are enthusiastic about the opportunity to build software products with a great company. In addition…

- 7 years or more of experience developing, implementing, and working with security software.
- Experience working in a software product or security environment
- Abilities in all or a majority of the following languages/technologies/platforms:
    - Linux (must)
    - Perl (must)
    - MySQL or equivalent database (must)
    - JavaScript, AJAX
    - Apache/Lighttpd
    - PHP
- The ability to draw up a plan, communicate it to the team, and execute to it.
- The ability (and desire) to pay attention to detail (must)
- The ability to learn about the code by reading it.

Good to have

- Knowledge of the shared web-hosting world; knowledge of application vulnerabilities and malware; knowledge of web application security best practices.

Anything else? Absolutely.

SiteLock was recently awarded the Best of Cool award for our great culture by BestCompaniesAZ and are one of the Best Places to Work as awarded by Arizona Business Journal. Essentially, we offer a relaxed, friendly, fun and upbeat environment since we work here too! SiteLock is also the Fastest Growing Software Company in Arizona two years in a row per Derloitte's Fast 500, and we aren't slowing down anytime soon!

So What About The Perks? Perks Matter.

- **Medical, Dental and Vision.** SiteLock pays a nice chunk of your premiums to keep the cost as low as possible for our employees.
- **10 days of PTO, 5 Sick days and 7 paid Holidays.** Because who doesn't love time off?
- **Benefits like 401(k), company paid life insurance, short and long-term disability.**
- **Casual Dress.** Come dressed in jeans (you'll fit right in with the rest of us).
- **Game Room.** Gimme a break – no, not a Kit Kat ad but we do have a ping-pong table, shuffle board and PlayStation if you ever need a break in your day.
- **Wellness Program.** We want our employees to be the best versions of themselves. That's why we offer a Wellness Program that includes an in-house Fitness coach, back massages, allergy testing, biometric screenings and much more!
- **Growth opportunities.** When we grow… our people grow! Our plan is to double in size by 2021. In order to do that, we need to develop our team members and foster their knowledge in cyber security and business.
