

SiteLock Needs Web Security Research Analyst

SiteLock is the Global Leader in business website security and is the **only** web security solution to offer complete, cloud-based website protection. We find and fix threats, prevent future attacks, accelerate website performance and meet PCI compliance standards for businesses of all sizes (basically like Batman if Gotham City was the internet). Our mission is to protect every website on the internet (yes, we know that's a colossal goal, but we are THAT good), that's why we need talented people like yourself to join our ever-growing team!

That's Nice, But What's The Job?

The Web Security Research Analyst leads the effort to improve the effectiveness of SMART by managing the malware Signature Queue to ensure new signatures are incorporated in the product in a timely manner. In addition this position will help educate our customers by publishing security related articles in the SiteLock blogs and researching potential vulnerabilities in common products and plug-ins.

What Are We Looking For?

The Web Security Research Analyst will take a proactive approach to identifying security risks to our customers. Responsibilities for this position will include:

- Decode and determine intent of suspicious code.
- Create and deploy code snippets to catch suspicious files.
- Deploy signatures in a timely, coordinated manner.
- Clean site infections of malicious SEO spam.
- Review partial signatures and create regular expressions that will safely clean malicious code.
- Submit new malicious sites and code to signature queue.
- Create tools to automate tasks.
- Educate customers by writing timely blog posts on the latest malware and security trends.
- Continuously analyze WordPress and other software, top plug-ins and themes to identify potential security risks.
- Research sources of infections to identify additional signs of infection.
- Stay abreast of the latest web, WordPress, and general security related developments.
- Overall understanding of programming and server-side scripting, proficiency in PHP.

Nice To Haves

- Comfortable with the Linux command line and regular expressions.
- One (1) to two (2) years experience and/or training pertaining to Internet Security; or equivalent combination of education and experience.
- Ability to work without supervision and to make appropriate decisions.
- Ability to process work with accuracy, with attention to detail.
- Ability to maintain confidential information.
- Ability to work well in a team environment.
- Clear written and verbal communications.

Anything else? Absolutely.

SiteLock was recently awarded the Best of Cool award for our great culture by BestCompaniesAZ and are one of the Best Places to Work as awarded by Arizona Business Journal. Essentially, we offer a relaxed, friendly, fun and upbeat environment since we work here too! SiteLock is also the Fastest Growing Software Company in Arizona two years in a row per Deloitte's Fast 500, and we aren't slowing down anytime soon!

So What About The Perks? Perks Matter.

- **Medical, Dental and Vision.** SiteLock pays a nice chunk of your premiums to keep the cost as low as possible for our employees.
- **15 days of PTO and 7 paid Holidays.** Because who doesn't love time off?
- **Benefits like 401(k), company paid life insurance, short and long-term disability.**
- **Casual Dress.** Come dressed in jeans (you'll fit right in with the rest of us).
- **Game Room.** Gimme a break – no, not a Kit Kat ad but we do have a ping-pong table, shuffle board and PlayStation if you ever need a break in your day.
- **Wellness Program.** We want our employees to be the best versions of themselves. That's why we offer a Wellness Program that includes an in-house Fitness coach, back massages, allergy testing, biometric screenings and much more!
- **Growth opportunities.** When we grow... our people grow! Our plan is to double in size by 2021. In order to do that, we need to develop our team members and foster their knowledge in cyber security and business.
